

Business Advertising and Media Solutions

3 Aces Entertainment is an owner operated small business so we understand the challenges and needs you face. We strive to find innovative and inexpensive ways to promote and improve your business.

TV BILLBOARDS

If there is a television in a room and a person in that room, you can bet that the person will be looking at the television.

With our promotional DVD slideshows you can turn any TV into a digital billboard.

Show your support for sponsors on the big screen

Catch the customer's eyes with daily specials and favorite menu items in a way that no placemat can

Replace paper signs taped around the waiting room with an attractive presentation.

WEB DESIGN

If you're looking to develop a website for your business and corporate web design firms are trying to sell you services that you don't understand or don't need you have options. Our basic web packages include designing your site, buying a domain name, and arranging hosting for as little as \$40.

VIDEO PRESENTATIONS

When communicating information to employees or clients, video offers a convenient, engaging, and even fun way to assure your message is received.

Spice up corporate promotional packages with hi-tech presentations that play on any DVD player or computer

Convert PowerPoint presentations to DVD to assure others can access it without special software or even view at home on their TV.

TRAINING VIDEO RECORDING AND PRODUCTION

Providing consistent training to all employees without shutting down operations or repeating training multiple times is sometimes impossible.

Our training video production services aim to save you time and money by recording a training session or multiple training sessions and compiling them onto a DVD that can incorporate music, narration, PowerPoint slides, pictures, diagrams, and scanned documents. Employees can then watch trainings when it is convenient for operations, not just when it's convenient for presenters. Employees can even take a copy home for future reference.

DISC DUPLICATION

We also provide duplication services for all media including audio CD, CD ROM, and DVD.

3 Aces Entertainment is proud to be your local owner operated provider of affordable media solutions for your family as well as video advertising solutions for small businesses in the East Central Indiana area.

Family Media Services

We believe that everyone should have access to affordable media solutions that preserve and celebrate memories using the best technology possible. When choosing 3 Aces Entertainment you are choosing a professional quality product and personal customer service experience that large corporate agencies just cant match

DVD PHOTO SLIDESHOWS

If carrying out tons of photo albums, trying to share pictures by passing around a tiny cell phone screen, or pulling out wrinkled snapshots from your wallet keeps you from enjoying the experience of sharing memories, we have the solution.

Imagine setting down in front of any television and watching your photos come alive with music, motion, and personalized titles. Send friends and family a truly personalized gift with dozens or hundreds of photos in one envelope.

We can create an entertaining and meaningful production for any occasion

Give your family a visit from Christmas past with your favorite holiday pictures

Stimulate conversation and reminiscing at your next family reunion with pictures from years past

Watch your home remodeling project progress step by step

Add an appreciative salute to military homecomings

Show off you summer vacation photos in a fun and interesting way

Rev up judges at the next car show when they see your project car being built before their eyes

Celebrate graduations, 1st 16th 40th 50th 65th birthdays, or wedding anniversaries with a look back on the past

Commemorate the life of a passed loved one with a memorial slide show to share with friends and family

VHS TO DVD CONVERSION

VHS tapes, 8mm camcorder tapes, even digital video tapes are all recorded by arranging small metal particles on the tape using special magnetic components inside of the recorder.

Data stored on magnetic media such as video tape begins to deteriorate from the moment that it is made. Every time you watch a video tape, and every day that your media sets on the shelf, the quality of the images grows closer to being lost forever.

The good news is that by converting these tapes to DVD now you can

preserve them without further data loss for generations to come.

DVD media is a highly stable medium for the storage of digital data and can preserve your movies without loss of quality for years.

In addition to preserving you memories 3 Aces Entertainment offers options to enhance your video with menus, titles, music, or by editing content to remove portions of the video that you do not want included.

WEBSITE DESIGN

If you want a personal website to share information about family happenings, to display your resume to potential employers, or show off your hobbies and crafts 3 Aces Entertainment can help you.

From designing the site, to buying a specialized domain name, to arranging hosting we can help you at every step.

We guarantee that no corporate web design firm can match our prices for personal websites.
